Muhammad Mibsam Baig

Full-Stack Developer

I Build Apps That Think.

ABOUT ME

Self-driven Full-Stack Developer with a proven record of building and shipping real-world AI-powered web applications. Proficient in the MERN stack, Python/Flask backends, and AI API integration. Seeking opportunities where I can build products that actually matter.

PROJECTS

WhatsApp AI Chatbot

Flask Twilio OpenRouter API localhost.run

AI-powered WhatsApp chatbot that handles customer queries automatically 24/7. Built with Flask backend, Twilio sandbox integration, and OpenRouter AI. Deployed with SSH tunnel.

Real-Time Collaborative Editor

React Node.js Socket.io Deployed

Google Docs-style collaborative editor where multiple users can type simultaneously with live sync. Features colored user badges and instant WebSocket updates.

Clinic Booking App

React Node.js PostgreSQL Vercel Railway

Full-stack appointment management dashboard for a dental clinic. Includes booking system, admin panel, and live deployment on Vercel and Railway.

AI Customer Support Chatbot

Flask React OpenRouter API

Full-stack chatbot with system prompt configuration, persistent chat history, and clean bubble UI.

AI Interview Coach

Flask React OpenRouter API

Paste a job description to receive tailored interview questions, answer them, and get AI feedback on your responses.

PDF Q&A App

Flask React RAG

Upload any PDF and ask questions — AI answers based on document content using keyword-based retrieval.

To-Do List App

React Node.js PostgreSQL Netlify

Full-stack task management app with Node.js backend, PostgreSQL database, and React frontend. Deployed on Netlify.

Weather App

React Live API Netlify

Responsive weather app with real-time data and dynamic UI. Deployed on Netlify.

BKK by Erum

React Client Project Netlify

Real client website built and delivered. Live on Netlify.
